

## Editorial features 2018

Northern African Wireless Communications welcomes your contributions.

Overleaf, you can see the feature topics we're aiming to cover in 2018 & encourage you to get in touch to find out more about how you can get involved.

We also encourage you to contribute to our regular sections as shown below. Contact Rahiel Nasir, editorial director, at [rahieln@kadiumpublishing.com](mailto:rahieln@kadiumpublishing.com) for further information.

### News review

Including regional reports & developments, technology updates, deployment news, etc.

### Wireless business

Financial reports, corporate performance, M&A activity, personnel moves & investment news.

### Wireless solutions

New products and services to help build better wireless networks.

### World news

A round of key wireless developments from across the world.

### Case studies

Our regular 'Wireless users' section features case studies. We're interested in your customer success stories across all vertical sectors such as banking, education, energy, mining, transportation, etc.

### Industry viewpoint/feature

We welcome guest columnists, opinion articles & technical features from industry experts. Some of the topics we'd like to hear about in 2018 include:

- ✦ Has microwave reached its peak as a backhaul technology?
- ✦ Why 2G & building voice networks across the continent is still vital. Or is it?
- ✦ Has tower sharing worked in Africa?
- ✦ OTT – friend or foe of the mobile operator?
- ✦ How do VNF & SDN impact wireless operators & should they really care?
- ✦ How important are Gigabit Ethernet platforms for wireless service providers?
- ✦ Wireless in a wired environment – the relevance of optical transport networks for MNOs & WISPs
- ✦ Latest hardware to build the IoT. Plus, which standard?
- ✦ How to build smart cities in Africa
- ✦ Dealing with urban connectivity chaos: small cells & hetnets
- ✦ Why the antenna is the unsung hero in every network
