World news

A roundup of key wireless developments from across the world.

Wireless users

Featuring your customer success stories & case studies.

Your views & thought leadership articles

We welcome guest columnists, opinion articles & technical features from industry experts. Some of the topics we'd like to hear about in 2019 include:

- ✦ What's the future of backhaul – has microwave technology reached its peak?
- ✦ How to prevent network downtime
- ✦ Is 5G for Africa?
- ✦ The importance of software defined radios
- ✦ Digital switchover update and using the 'digital dividend' to deliver broadband
- ✦ How do VNF & SDN impact wireless operators & should they really care?
- ✦ How important are Gigabit Ethernet platforms for wireless service providers?
- ✦ Will ubiquitous remote & rural connectivity ever be achieved?
- ✦ OTT – friend or foe of the mobile operator?
- ✦ What good is VAS in a market where smartphone penetration is low?
- ✦ Is OSS/BSS just another managed service best left to the big name vendors?
- ✦ Smart cities: what's the reality in Africa?

Important note for contributors:

All features and publication dates are subject to change, cancellation or alteration without notice. Kadium Limited welcomes editorial contributions but cannot be held liable for any losses or damage caused by the non-publication of material. All articles for publication are accepted in good faith and authors must be able to verify that such submissions are previously unpublished and represent their own original work which is not subject to local or worldwide copyright or legal restrictions. All articles for publication are subject to editing and alteration as per the needs of the publisher. Upon publication, ownership and all worldwide rights of commissioned features transfer to Kadium Limited and cannot be reproduced in any print or electronic format, or stored in an archive retrieval system, without prior written consent.
